

"Global challenges - local Utopias: How do YOU imagine the world in future?"

Tuesday, 21st of December 2021
4:00-7:00pm Workshops and Exchange
7:30-9:00pm Film and Discussion
(online - central european time)

We warmly invite you to celebrate the launch of "Turning.Site", a website to collect your visions of the world in 20 years from now... How can people actively engage in activism, exercise self-care and continue to contribute to a social and ecological transformation? Which local approaches exist to face global challenges? Two NGOs will share their knowledge and ideas.

"Inclusive Territories - Sustainable spaces for local communities, nature and animals"

Talk with Fabio Zabala-Forero, Fundación ProTerra (Colombia)

Fabio introduces the vision of how we can live together: In the understanding and experiences of diverse actors from social and ecological movements and resistances in Colombia, a „territory“ describes a physical and spiritual ecosystem in which the needs of all the people, animals and nature are interrelated and thought together.

„Inclusive territories“ are therefore communities of life on a piece of land/town/area where all these needs are reconciled – through mutual consideration, sustainability and solidarity.

"Radical Resilience - Ways of sustainable activism and emotional self-care"

Short Workshop with Lian & Delila, Makers of the film "Radical Resilience" (Germany and England)

In this short workshop, we'll watch a few film sequences from "Radical Resilience" and then reflect on and share together how we feel about the situation of the world. Finding a good way of handling our feelings helps strengthen our engagement and prevent us from sinking into powerlessness. But often we pay this too little attention in our efforts for change; we suppress our emotions or treat them as a taboo subject. It can be difficult to face up to the reality, especially when so much is going wrong in the world. That's why the focus of this workshop is how we can reconnect to our emotions and to the world that surrounds us.

"How do you imagine the world in 20 years time and how do we get there?"

Exchange session and presentation

Are you inspired to change the world? What is your vision for the future? How are you engaged in this change? Join us to exchange ideas! You will have the chance to share in a small group first, get inspired by others afterwards and post your story on the website in the end. Feel free to have a picture ready to upload.

Film "Radical Resilience"

Screening and discussion with Lian & Delila, Filmmakers

After the main event, the documentary film "Radical Resilience" will be live screened. This will be an opportunity for all participants to watch the film together online and join in a short discussion afterwards. The workshop is moderated by Lian und Delila, makers of the film "Radical Resilience", in which activists from all over the world share their experiences with burnout and resilience.
